Streamlining our new EFT/PAC process

As a reminder, a new improved Electronic Funds Transfer/Pre-Authorized Check (EFT/PAC) form is now available to help get policies placed and delivered faster and easier than before!

This Pre-Authorized Check (PAC) Premium Payment Service form can be utilized at time of application or during the application process to obtain applicant approval of either or both of the following to occur:

- Request that a one-time electronic funds transfer occur to pay for premium due as a delivery requirement should a policy be issued.
- Request ongoing PAC premium on active cases for premiums they become due.

Online one-time ACH option for delivery requirements removed effective July 20, 2023

With the availability of this new form, effective July 20, 2023 the online method by which an applicant could request a one-time ACH transaction to pay premium due as a delivery requirement will be discontinued, when the "Pay Premium" option will be removed from the www.ngl-essentialtc.com website.
