Update to Massachusetts Medicare Documents

Effective 8/31/2018

The commonwealth (state) of Massachusetts has revised the Massachusetts Medicare documents that must be left with applicants prior to completing the application. This includes a revised "A Guide to Health Insurance for People with Medicare" and "Massachusetts Bulletin for People with Medicare".

The updated documents will be available on the EssentialLTC Agent Resource Center under the Massachusetts application documents on 08/31/2018. This can be accessed by selecting the "New Business" tab, and selecting the state of Massachusetts from the "State-Specific Applications and Forms" dropdown.
